Welcome Week 2018
Micro-Seminars

Studying Engineering

Sam Safadi
Aerospace and Mechanical Engineering
Viterbi School of Engineering

USC, Los Angeles, and the College Experience

A brief history of Engineering and engineering education will be presented. The seminar discusses what engineers do. It shows how rewarding studying engineering can be and the benefits of an engineering degree. The seminar then talks about how to succeed in studying engineering.

We will take a look at the different disciplines of engineering (Aerospace, Civil, Electrical, Mechanical, etc.) and examine what engineers do in real life. We will discuss the reasons students have decided to become engineers, then tips for success in studying engineering will be provided.
