The Supremes’ Greatest Hits:
Supreme Court Cases That are Shaping Your Rights to Healthcare, Privacy, Abortion, and Contraception

Nicholas Merkin
EMHA Program
Price School of Public Policy

Several cases making their way to the U.S. Supreme Court this year have the potential to impact healthcare policy and your rights for years to come. In this Micro-Seminar, we’ll take a look behind the issues, debate policies, and consider the effects of current legal cases involving abortion disclosure laws, liability for drug makers, pharmacies for the opioid crisis, religious exemptions for contraception coverage, and more.

Participants will get the chance to engage in "Moot Supreme Court" oral arguments, playing the roles of advocates for both sides of an issue and court justices.

We will also analyze the different ways that judges have analyzed and ruled on earlier, prominent U.S. Supreme Court cases and take a deep dive into the structure and processes of the U.S. legal system and how an issue makes its way to the highest court in the land.
