PROGRAM DESCRIPTION

A brief description of the graduate program.

This Master of Science in Social Entrepreneurship (MSSE) is the first of its kind at a U.S. business school and is among the very few graduate degrees available worldwide that directly addresses social entrepreneurship. The program curriculum includes an exploration of the field of social enterprise and practice in feasibility analysis, impact investing, cause-related marketing, environmental sustainability, and global social impact.

The MSSE will give students the business knowledge and skills to make sustainable social impact. Students graduating from the MSSE may launch a social enterprise or play a key leadership role in an existing one. These enterprises may be stand-alone ventures or embedded in existing organizations.
