

**PROGRESSIVE DEGREE PROGRAM
COURSE PLAN TEMPLATE**

USC SCHOOL	Viterbi School of Engineering
ACADEMIC DEPARTMENT	Computer Science
GRADUATE PROGRAM	M.S. Environmental Data Science
POST CODE	1790
TERM EFFECTIVE DATE	Spring 2021

PROGRAM DESCRIPTION

A brief description of the graduate program.

The degree consists of a set of required core and elective courses in both data science and environmental studies. Students will learn about artificial intelligence (particularly machine learning and semantic data models), data management, privacy, and data visualization. Courses in environmental studies will provide a foundation in natural resource dynamics and management, as well as today's most pressing environmental challenges. These courses will provide a foundation in natural resource dynamics and management, as well as today's most pressing environmental challenges. Capstone courses based on real-world projects will enable students to acquire practical experience applying data science to address particular environmental problems of interest.

COMMON BACHELOR DEGREE PROGRAM PATHWAYS

A list of common bachelor's degrees that undergraduate students pursue in advance of pursuing a progressive degree option with this graduate program. Some programs are restricted to certain majors while others are open to all students.

Computer Science and other Engineering Majors.	Students in these majors are directly eligible to apply for the ENDS PDP.
Math, Science, Computational, and Environmental Studies majors from Dornsife	Most students in these majors are directly eligible to apply for the ENDS PDP.
Public policy majors from Price and majors from other schools.	Most students in these majors are directly eligible to apply for the ENDS PDP.

PREPARATORY UNDERGRADUATE COURSES

A list of courses at the undergraduate level that prepare students for the graduate program. Required coursework is listed first, followed by recommended courses. If not applicable, this section will be blank.

Dept. Prefix - Course #	Course Title	Required or Recommended	Units
MATH 125	Calculus 1	required	4
	Choose ONE of the Statistics courses below		
BUAD 310	Applied Business Statistics		4
BUAD 312	Statistics and Data Science for Business		4
MATH 407	Probability Theory		4
EE 364	Intro to Probability and Stats for Electrical Engineering + CS		4

**PROGRESSIVE DEGREE PROGRAM
COURSE PLAN TEMPLATE**

UNDERGRADUATE COURSES USED TO REDUCE GRADUATE LEVEL UNITS

A list of undergraduate level courses that may be used to reduce the number of graduate level units required for the graduate program. If there are none, that is specified instead.

Dept. Prefix - Course #	Course Title	Units
	Computer Science majors or other undergraduates with a strong programming background may have DSCI 510 waived.	
ITP 115	Programming in Python	2
ITP 116	Python for Programmers	2

CORE GRADUATE PROGRAM REQUIREMENTS (# units required)

A list of all required graduate courses for the graduate program. None of these courses may be used toward satisfying undergraduate degree requirements.

If special exceptions for any of these courses are made by the academic department, the course # is marked with an asterisk () and the exception is explained in the "Department Notes" section at the end of this course plan template.*

Dept. Prefix - Course #	Course Title	Units
DSCI 510*	Principles of Programming for Data Science	4
DSCI 549*	Introduction to Computational Thinking and Data Science	4
DSCI 550*	Data Science at Scale	4
ENST 500	Interdisciplinary Approaches to Environmental Studies	4
ENST 530	Environmental Risk Analysis	4
SSCI 581	Concepts for Spatial Thinking	4
	CS majors and those with programming exp. can waive DSCI 510	
	CS majors should replace DSCI 549 with DSCI 551	
	CS majors should replace DSCI 550 with DSCI 552	

PRE-APPROVED ELECTIVE COURSEWORK

Elective coursework is approved at the discretion of the academic department. Note the following details about the total number and units required of elective coursework.

8	TOTAL ELECTIVE UNITS REQUIRED FOR THE TRADITIONAL GRADUATE DEGREE
8	TOTAL ELECTIVE UNITS REQUIRED FOR THE PROGRESSIVE GRADUATE DEGREE

TOTAL UNIT COUNTS AND REQUIRED GRADUATE UNITS

32	TOTAL UNITS REQUIRED FOR THE TRADITIONAL GRADUATE DEGREE
4	TOTAL GRADUATE UNITS THAT MAY BE WAIVED (IF ANY)
28	MINIMUM NUMBER OF GRADUATE UNITS THAT MUST BE AT THE 500 LEVEL OR ABOVE

**PROGRESSIVE DEGREE PROGRAM
COURSE PLAN TEMPLATE**

NOTES FROM THE DEPARTMENT

This section highlights any unique considerations, exceptions, or requirements for the graduate program. If a program has specific restrictions (courses, majors, etc.), they are detailed below.

Computer Science majors or those with a strong programming background may waive DSCI 510 and complete a 28 unit PDP. All other students should expect to complete the program with 32 units.

Computer Science majors should replace DSCI 549 with DSCI 551 Foundations of Data Management.
Computer Science majors should replace DSCI 550 with DSCI 552 Machine Learning for Data Science.

Kelly Goulis
